

Connect Kids Kindergarten Montmorency

We are now accepting enrolments for our Kindergarten including Pre-Prep Program in 2024.

Connect Kids Kindergarten is a unique program in that it is a 'Pre-Prep Program'. This equates to us being a 'bridging' year between kinder and school and it is, therefore, best suited to children who are in their second year of four-year-old kinder or those children who would benefit from more structure than what 'regular' kinder offers.

A Pre-Prep Program is an important milestone for your child's development. It will help children learn skills that become a foundation for future learning and life skills.

At Connect Kids Kindergarten, we believe that the success of the Pre-Prep is based on the following:

- Our collaboration with all families and our community.
- Our education and support provided to all children.
- The experience and resources we provide our children.
- The professionalism and commitment demonstrated by experienced teachers.
- Work alongside with Allied Health Professionals.

Our program includes the following elements:

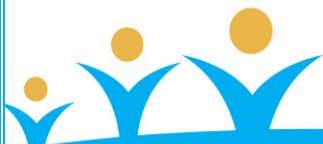

- Early Years Learning Framework (EYLF)
- Social and Emotional Learning (SEL) Framework
- Early Learning Languages Australia (ELLA) Program
- Little Learner's Love Literacy (LLLL) Program
- Hartley's handwriting Program
- The Resilience Project
- Grow Your Mind
- Second Step Program.
- Beyond Blue

We look forward to supporting your child with our quality school readiness program.

Connect Kids Team.
